

La la La la la la mansplaining misery
Oh how they bother me

Targeting me see my silver white hair
They won't desist its so unfair
On & on with looks of disdain
Total know it alls who show no restraint

Striding in with bombastic force
Infecting your life as a matter of course
Sapping your confidence with incredible ease
Unaware the task is a breeze

La la La la la la mansplaining misery
Oh how they bother me

Total lip service don't hear what I say
They just want it all their own way
Feeling so fed up wildly incensed
Is there no way to shut up these gents

So intense they mess with your head
Get so mad they make you see red
Do don't give me no eggs to suck
Cos' I no longer give a fuck

La la La la la la mansplaining misery
Oh how they bother me
